

FRENCH PIONEER

in electric navigation

The future of navigation will be electric! Founded by two passionate people of the sea, sailing and water sports, Orphie Boats aims to share this passion in a different way, while preserving our coastline.

Our tailor-made approach and our dedicated turnkey services are adapted to support professionals who wish to operate our 100% electric boats.

UNIQUE KNOW-HOW

in the design and manufacture
of boats adapted to their environment.

The creation of the Orphie 29' was guided by three essential criteria:
functionality, 100% electric propulsion and the desire to design a
beautiful, simple and elegant object

EXPERIENCE THE ORPHIE BOATS ADVENTURE

AN ALTERNATIVE EXPERIENCE

to discover with family or friends

THE PLEASURE OF SAILING

With the Orphie 29', our electric trimaran, the glide is smooth and silent, close to that of a sailing boat. Its innovative hull design, the silence of the electric propulsion and the possibility of deploying a kite make sailing fun, reassuring, accessible to all and respectful of the environment.

WELLNESS ON BOARD

Experience something different: a contemplative and rejuvenating experience, in connection with nature. At anchor, the stability of the Orphie 29' ensures an unparalleled sense of well-being, ideal for those prone to sea sickness. While sailing, your mind can wander to the rhythm of the silence, the glide and the beauty of the coastline!

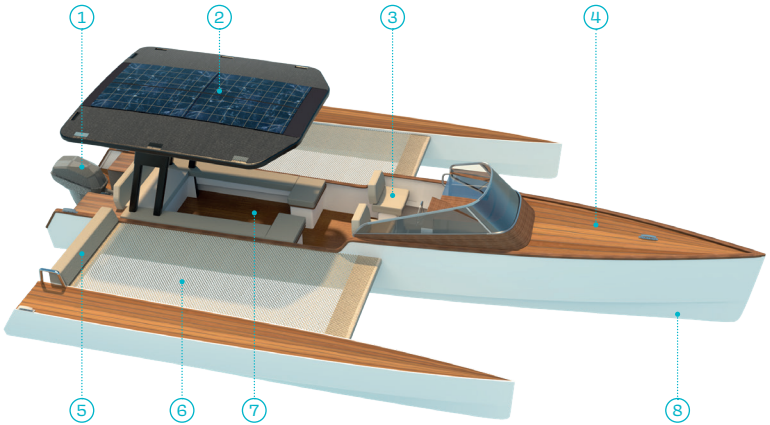

CONVIVIALITY

Share a meal or an aperitif on the large table at your disposal, spend a "farniente" moment in the shade or in the sun, enjoy an incomparable fitted out space, everything is possible! A single watchword: share, with family or friends, unforgettable moments at sea.

SIMPLICITY & ACCESSIBILITY

The 100% electric propulsion of the Orphie 29' has a range of 40 nautical miles, which is more than the 30 miles sufficient for a nice day at sea. The power of the motors will ensure a safe return to port, whatever the conditions. When you arrive at the quay, you just have to plug in the boat, which recharges itself in 4 hours.

AESTHETIC & INNOVATIVE TRIMARAN

- ① Electric motor
- ② Solar panels
- ③ Pilot station
- ④ Toilet and fridge
- ⑤ Headrests
- ⑥ Trampoline with removable shade cloth
- ⑦ Dining area for 8 people
- ⑧ Bow thruster with water jet

ENVIRONMENTALLY FRIENDLY

100% electric

Zero noise

Zero emission

Zero fuel

TECHNICAL FEATURES

Dimensions

Length: 8,98 m (29')
Width with folding beam:
 > 5,49 m (16') unfolded
 > 3,49m (10') folded

Draft: 45 cm
Total empty weight: 1900 kg

Construction

CP : Epoxy Carbon

Outboard motorization

■ Cruise 12.0 option
12 or 24kW power
Battery bank from 20 to 55kWh

■ Deep blue 50kW option
40kWh battery
BMW technology

Architecture & Design

Piaton Bercault
